Way of Life!

The ideal partner

Suzuki's CARRY Pick-up is the ideal choice for today's—and tomorrow's—light-commercial and fleet businesses, offering more load space, plus better performance, durability and reliability; all that and passenger-car comfort, too. Yet the CARRY Pick-up is still nimble enough to meet the diverse needs of its users.

The versatile load deck opens on three sides for easy loading and unloading of cargo.

Side-locking gate handles on the tailgate and panels provide added security.

Hooks on the outer tailgate and side panels tie down cargo for added convenience.

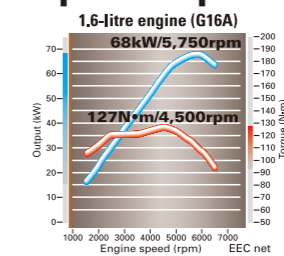

A protective rear frame stops shifting cargo from hitting the cabin.

The instrument panel looks like that of a passenger car, with all major controls and compartments smartly placed for ideal functionality.

Spirited performance meets demands

Aluminium 1.5- and 1.6-litre 16-valve engines are extremely fuel-efficient yet deliver exceptional output and torque when required.

The compact and light-weight **front MacPherson strut & coil spring suspension** is specifically tuned for straight-line stability.

Large 14-inch tyres are fitted to **steel wheels** with five mounting bolts for increased durability.

Comprehensive safety ensures confidence

Suzuki's **TECT** body directs collision-impact energy away from the cabin, with the nose acting as a buffer for increased protection.

Rigid cabin construction incorporates **side impact door beams** to help protect occupants in side collisions.

The CARRY Pick-up is equipped with reliable **ventilated disc brakes** in the front and reliable **drum brakes** in the rear.

Headlamps are well elevated for better all-round visibility plus reduced vulnerability in minor collisions.

All-round utility satisfies expectations

Front door step boards and **front passenger's access support grip** ease cabin entry and exit.

Handy cockpit compartments, like **glove box** and **driver's side storage pocket**, keep small items within easy reach.
